

NorMar Skimmers

Oil Spill *Response* *Equipments*

The NorMar skimmers are designed as light weight skimmers with a sturdy aluminium frame for protection of the skimmer pump.

The main body comprises:

Aluminium frame

Transfer pump with hydraulic motor

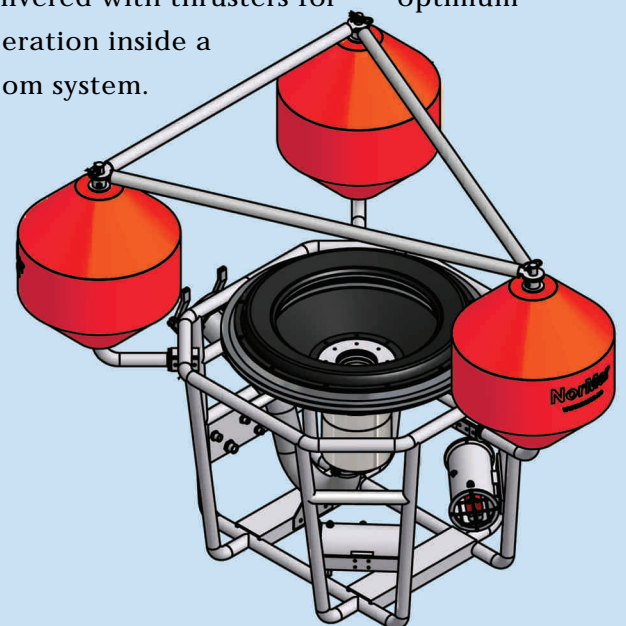

Oil sump

Quick couplings for connection to transfer hose and hydraulic lines.

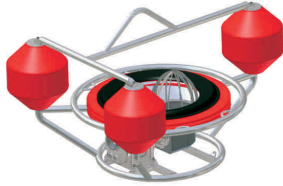

3 x floats. Material: Foam filled PE

Floating ring with skirt. Material: Vacuum cast PVC

The NorMar 50 and 100 may be delivered with different type of pumps, dependant on users requirement. Either Archimedes screw pump with cutting knives for pumping of medium to heavy oil, or a centrifugal pump for pumping of light to medium oils. The NorMar 200 and 350 skimmers are delivered with high capacity centrifugal pumps. The skimmers may be delivered with thrusters for optimum operation inside a boom system.

NorMar Skimmers

Model	Capacity	
NorMar 30 Weir skimmer for light to medium oils	0-30 m ³ /h Archimedes screw pump with cutting knives. Hydraulic oil flow: 80 l/min Hydraulic pressure: 210 bar	
NorMar 50 Weir skimmer for light to medium oils.	0-60 m ³ /h. Archimedes screw pump with cutting knives. Hydraulic oil flow: 130 l/min Hydraulic pressure: 210 bar	
NorMar 100 Weir skimmer for light to medium oils	0-100 m ³ /h Archimedes screw pump with cutting knives. Hydraulic oil flow: 160 l/min Hydraulic pressure: 210 bar	
NorMar 200 Weir skimmer for light to medium oils	0-200 m ³ /h Stainless steel centrifugal pump with cutting knives. Hydraulic oil flow: 160 l/min Hydraulic pressure: 210 bar	
NorMar 200 Weir skimmer for Ocean Buster. Shallow draft	0-200 m ³ /h Stainless steel centrifugal pump with cutting knives. Hydraulic oil flow: 160 l/min Hydraulic pressure: 210 bar	
NorMar 350 Weir skimmer for light to heavy oil	0-350 m ³ /h Centrifugal pump with combined screw/centrifugal impeller
